Gary;

Alonzo used to work here and I'm sure they are working the ropes. Mr. Halaz is an old consultant from Kleinfelder days before TRC took it over. They may have discussed what to include in the application response. We'll see if they got the info. needed for the discharge permit.

I'll let you know as soon as I get the IOM from wastewater section. I am drafting a letter to include the memo along w/my comments. I don't have any real comments to add that directly address the wastewater discharge permit as they relate to discharge limits.

Phil

I am just wondering if TRC is not giving me honest info so that is why I am checking with you.

Thanks  
Gary

Gary;

Chris Mansuri wrote the discharge permit application. They may have talked w/wastewater folks and agreed on info to be submitted to satisfy their permit requirements, but nothing has been issued through me. I've received nothing other than comments from wastewater permit staff. Like I said earlier, I just received their response to forward to the wastewater permit folks Friday the 18th.

I know they are anxious to get moving on this and I have informed the wastewater section of the urgency of this moving forward for the site.

---

Gary,

I received this email from Chris Mansuri our PE that wrote the discharge permit.

We have concurrence in advance from Amanda Pirani (TCEQ) on all of the changes made.

Stephen:

Who did you guys get verbal approval from for the discharge permit?
